Tested to  
comply with  
EN 15373**

# D18

The **D18** model is a chair designed to be used in public offices, workplaces, bars, restaurants, hospitals and conference rooms, an ideal product for public spaces in general.

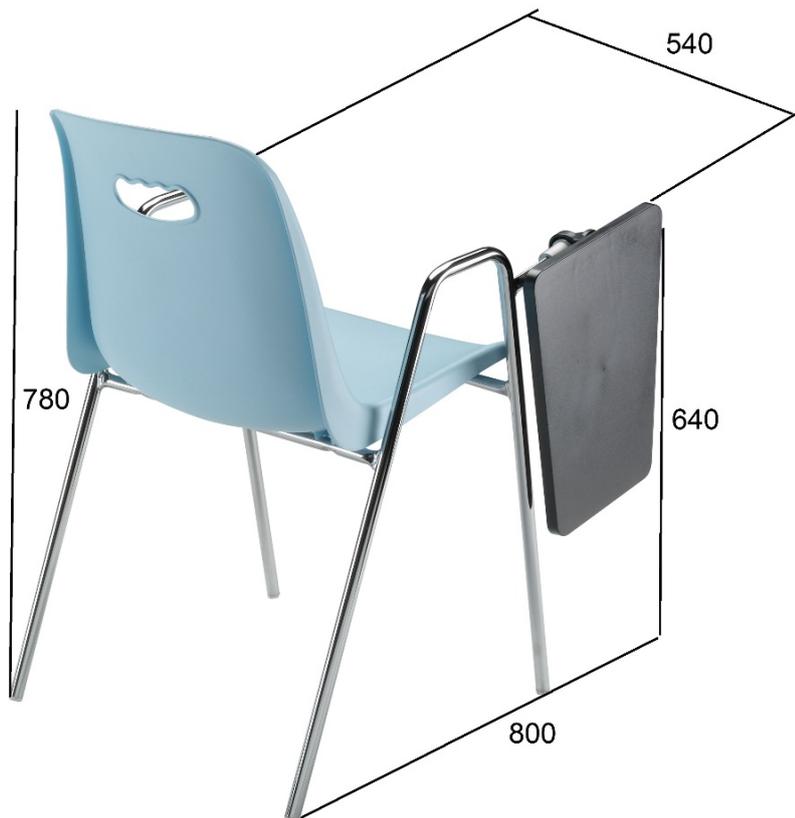

Minimal, comfortable, light and handy design, easy to move thanks to the central hole and easy to clean, up to 22 units can be stacked. The shell produced with first choice polypropylene is available in a wide range of colors, and a padded panel with fabric covering can be applied to the seat.

**D18** is available either with a 4-legged frame 18 mm dia. or with a chromed wire frame, with a hooking system and with a writing tablet which makes it ideal for use in conference rooms
