S18

NURSERY AND KINDERGARTEN CHAIR

The S18 chair is made of first choice polypropylene, Non-toxic and hypoallergenic, it is perfect for nursery and kindergartens, its height can be increased with a simple replacement of the lower feet (supplied in kits) made out of scratch-proof plastic material. Particularly strong, with round edges to prevent possible injuries, easily washable. The shell favours a correct and restful posture. Available in a wide range of colors.

Tested to comply with EN 1729

Art. OM 4.326
