TECHNICAL DESCRIPTION

Giotto

The new **Giotto** armchair has been designed to offer maximum comfort and long-lasting durability. Our sports facility armchair represents the perfect synergy between ergonomics, solidity, and functional design. Built with a reinforced metal structure, it ensures high stability and wear resistance, even in high-traffic environments and under prolonged stress.

The core of the seat is fully padded with high-density polyurethane foam, shaped to follow the contours of the body and ensure an exceptionally comfortable seating experience, even during prolonged periods of use. The upholstery is designed to provide the right balance between softness and support, helping to reduce fatigue and correct posture. It can be made of eco-leather, fabric, velvet, or leather, with a wide range of colors and combinations available.

Giotto complies with European regulations UNI EN 13200 1-4 and is tested according to European standard UNI EN 12727.

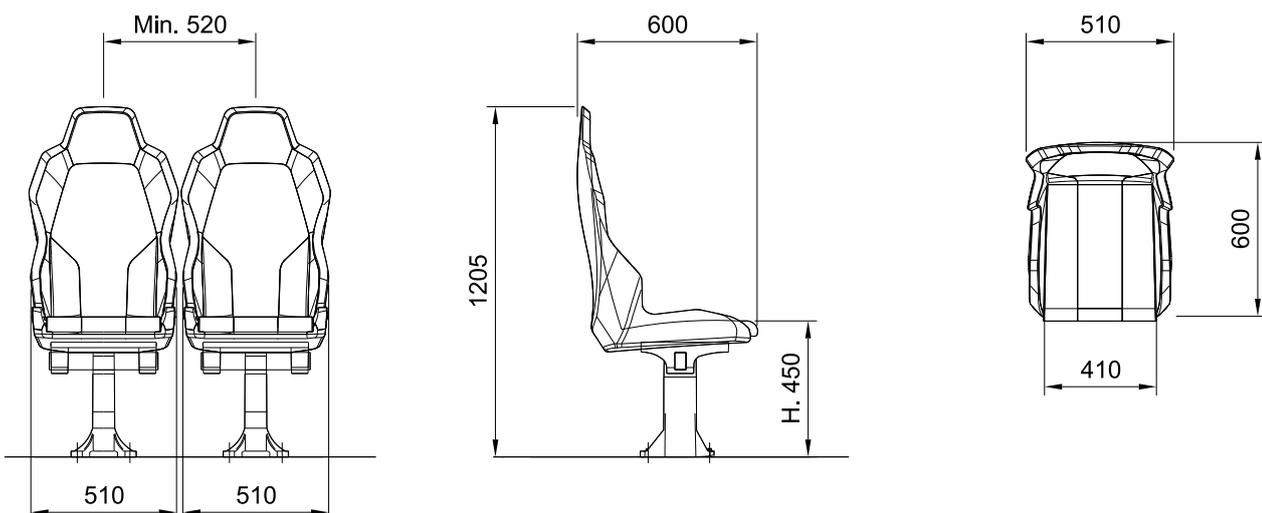

MAIN FEATURES:

- Painted steel structure for superior resistance to weather and corrosion.
- High-density, non-deformable, fire-retardant polyurethane foam for long-lasting and safe comfort.
- Ergonomic backrest and seat design, developed to ensure maximum well-being even during long-lasting sports events.
- Easy installation and low maintenance thanks to high-quality materials and durable finishes.

DIMENSIONS: depth 600 mm, width 510 mm, seat width 410 mm, center to center distance minimum 520 mm

INSTALLATION POSSIBILITIES:

- ON SINGLE PEDESTAL OR BEAM WITH VERTICAL POLYAMIDE FOOT the supporting structure is fixed to a polyamide plate which is hooked onto the metal beam
- ON FIXED OR MOVABLE METAL BENCH
- ON 5-STAR FIXED OR SWIVEL BASE WITH GAS LIFT ideal for conference rooms.
